

Amendments to the Claims:

This listing of claims replaces all prior versions and listings of claims in the application.

Listing of Claims:

1. (Original) A method of profiling mRNA production during stages comprising:  
isolating a plurality of cells each characterized by a different stage of disease progression;  
antisense RNA transcripts from mRNA of each of the plurality of cells;  
amplifying the antisense RNA transcripts; and  
quantitating the levels of individual antisense RNA transcripts which is indicative of  
levels of an mRNA for each of the plurality of cells.

2-56. (Cancelled)
